4 TIPS TO HAVE FUN IN FALL

Autumn is the season of beautiful colours, special moods and endless happy moments.

You can count on MOM Park during this time of year to cheer you up. Update your wardrobe with the most stylish pieces of the season, discover the latest beauty supplies, try new, exciting flavours and renew your home. We have collected some inspiring ideas to take happiness home.

1. Colours affect our state of mind, so it's worth paying attention to what clothes you choose. In fall, dynamic shades, silhouettes and styles prevail, so if dressed in a cheery outfit, your mood will benefit, as will your personal style. Update your wardrobe with the autumn collections of **MOHITO**, **Gerry Weber** and **Salamander** offering bold and vibrant pieces that fit the changing weather of the season.

2. In fall, your skin can dry out more easily, so it needs more care. Get the right cosmetics for the season at **Müller** and do not forget to add some pampering products to your basket — a relaxing face mask can do wonders. Then all you need is stylish makeup for a flawless look. Gold glitter powders can perfectly complement your autumn wardrobe. Discover the shimmering bronze products from **Bobbi Brown's** autumn collection, which will look wonderful alongside your gorgeous earth colour garments.

3. Let the natural earth tones of the season embellish your home. Whether autumn is synonymous with a warm blanket placed on the living room sofa, kitchen mugs or the decoration of your terrace, it will surely create a special atmosphere. Visit **BUTLERS** where countless decoration ideas await you. And with the different coloured candles available in the elegant and timeless **Arioso** shop, you can diffuse a fantastic scent and create intimacy in your home.

4. Autumn is the season of delicious, rich meals and hot drinks. Gastronomy lovers can choose from a wide range of special tastes and dishes from our restaurants. Visit **Trattoria Da Lello** if you are a lover of traditional Italian flavours or **Wasabi** if you prefer Far Eastern cuisine and taste their novelties. The delicacies of autumn are sure to enchant you, whether you are alone or with family and friends. And if you are looking for an authentic autumn experience, organise an afternoon tea party at the **Angelo Patisserie** and sample their scrumptious cakes.

RAINY *days*

A rainy autumn day does not mean you can not be stylish and practical at the same time. Do not be discouraged by the gloomy weather. Pull on a dark blue MAX&Co. raincoat or make your set even more stylish with a trendy Karl Lagerfeld umbrella, so there will be no raincloud to ruin your day. Prefer to stay between four walls? Make yourself cozy! Light a Ritual of Sakura scented candle or relax in a tub of hot water. Use the NAAVA Dead Sea bath salt to create a special mood and let this day be only yours!

FALL *essentials*

Although autumn has its basic pieces, it is still worth updating your wardrobe a bit every year. This season is all about scarves so it is worth getting 2-3, different pieces. An ecru and black Gerry Weber scarf can be a real jolly joker in your wardrobe. If you would like to make your set of clothes more colourful, Furla's orange Mini Crossbody bag is the way to go, but if you would like to glow in the absence of sunshine, Silver Island's Swarovski Elements bracelet will gleam in every moment.

Ready TO GO

Get ready for autumn with the perfect outfit. The trench coat, a timeless classic, is practical in the fall and will lend you a stylish look whether paired with pants or a nice dress. You can choose from real classics from H&M's fall collection. Combining your trench coat with this lightweight Michael Kors dress will add charm and femininity to even the gloomiest of urban days. Accessories can be black to match the rest of your wardrobe, but if you want to spice up your outfit, choose cheerful, polka-dot stockings or a special accessory from the brilliant range of Lukács Ékszer or the amazing offers of Pandora.

The secret of a cleverly designed wardrobe lies in updating your existing one with pieces that also match earlier, tried and tested compositions. As darker and more restrained shades dominate in the fall, it is worth adjusting your look to suit them, whether you are a fan of elegant or a sportier style. A dark 4_skandinavia slim fit jacket is a great choice, and if you like softer fall colours, make sure to look around in H&M. You can find the perfect shoes for rainier days in Office Shoes, and if you want to enhance your outfit, feel free to combine it with fashionable sunglasses from the Vision Express shop. INTERVIEW WITH ZSOLT Zólyomi

“A beautiful perfume is like a transparent dress on the skin, it offers an immediate sensory experience and lingers in your memory for a long time.”

- believes Zsolt Zólyomi, the only Hungarian perfumer in the country. He learned his craft from the best of the profession and has opened his own shop to dazzle perfume fans with his unique and personal products. But what exactly does a perfumer do and what happens at a personal consultation? Our interview with the owner of Le Parfum luxury perfumery in MOM Park answers these questions.

What does luxury mean to you?

Since I have been working in the international luxury industry for two decades as a pro, not surprisingly, brands or the cleavage of supermodels no longer fascinate me. I am a lot more impressed by an idea, the excitement of creation, the quality of craftsmanship, artistic quality, human values, and all in all, Beauty. I love a beautiful antique Swiss gold watch in its simplicity. Last year I bought a vintage mahogany yacht with an electric drive for the sake of environmental protection. It is simply awesome to set sail into the waters and imagine yourself on the Cote d'Azur. But a piano concert by András Schiff or a good Saint-Emilion Grand Cru can also enchant me.

What makes Le Parfum luxury perfumery and the perfumes available in it exclusive?

Today, the modern perfume industry, most regrettably, is usually something simple, an “average product that is understandable for the public” made from mostly cheap synthetic materials, and then tries to sell it for years, driven by a huge marketing budget, expensive stars and celebrities. Creative, uniquely brave fragrances made even today from exotic and expensive natural ingredients can only be found in the brands of smaller, so-called “niche” perfume creators, who do not advertise themselves, and so their creations are not available in every perfumery or airport, preserving their exclusivity. At Le Parfum, we only carry these types of perfumes and I even offer private fragrance consultations.

What happens during a private fragrance consultation?

This is an approximately one-hour luxury service, a fragrant journey as a part of which I first learn about my client's current life goals, fragrance preferences and usage habits applying a quick questionnaire, but the scent of the particular individual's skin is the most important factor. Then, after smelling a lot of fragrances, we analyse the possible fragrance families, notes and ingredients and test the most promising creations on the skin to find the perfect perfume. To my great delight, in my experience the selection process itself is a real, pleasurable experience not only for me, but also for the client.

What happens when you create a completely bespoke perfume for someone?

A custom-made, or sur mesure in French, creation is Le Parfum's top service, starting at HUF 2.5 million. It's like ordering an (invisible) dress from Christian Dior: first we assess the needs of the body and the soul and the circumstances of its future wear, then with many months of work, hundreds or even thousands of experiments I craft the perfume to suit the skin of my future muse, so every 2 to 3 weeks we test some possible fragrance variants, "branching points" on his or her skin. This is a very exciting, transcendent experience and also a process of self-knowledge, as we get to create the perfect signature perfume through a long journey of emotions, fantasies and fragrance memories.

Autumn BOOK REVIEW

Géza Bereményi's long-awaited autobiographical novel deals primarily with childhood and youth. The child, who grew up after the Second World War, was raised by his grandparents and the Teleki Square market. In 1956, at the age of ten, he experienced the revolution and his adolescent rebellion and wildness of youth coincided with the consolidation of the Kádár regime. This memoir is a testimony of a sensitive artist.
